NOTICE

Dear Parents

It has been observed in last few years that the institute is losing its bonafide students every year due to road accidents caused by high speed, rash and immature driving by them. Some of the parents have not taken this aspect into consideration while providing high pick-up, high cc and bikes of sports type to their children. A policy decision is taken in this regard that a two-wheeler free environment will be ensured in the institute.

Therefore it is an earnest appeal to all the sensible parents to cooperate and persuade their children not to use motor cycle as a means of transportation for coming to college
